

A B S T R A C T

A METHOD OF ACQUIRING AUDIOVISUAL CONTENT DESCRIPTION
DATA, A SYSTEM, A BROADCAST SERVER, A DESCRIPTION
5 SERVER, AND A RECEIVER TERMINAL FOR IMPLEMENTING THE
METHOD

The invention relates in particular to a method of
acquiring description data for broadcast audiovisual
10 content, the method comprising:

- a step (28) in which a receiver terminal (12)
transmits at least one information request to at least
one server (16) of audiovisual content descriptions;
and
- 15 · a step (30) of the receiver terminal (12)
receiving description data supplied as a function of
elements of the request.

It further comprises a prior step (20, 22, 24) of
acquiring and storing in the receiver terminal (12) at
20 least one initial information request comprising the
address of at least one audiovisual content description
server (16) and a step (26) of generating the request
on the basis of the previously-acquired initial
request.

25 The invention also provides a system, a broadcast
server, a receiver terminal, and a description server
for implementing the method.
